

Meeting Minutes -- Wednesday 26th February

- All Attending
- Type: Review
- Topic: Work Progress
 - Aviaras - PD Menu finished
 - Dylan - file writer standalone finished
 - Ryan - File browser ideas put forward
 - Rokas - GANNT chart made
- Topic: Create flow for GUI
 - Effectively communicating desired gui was hard
 - Sketches work well as a start point during discussions but quickly become unreadable
 - Decided to use a flowchart on draw.io for flow demonstration
 - Decided to use GUIGenie to create the gui simply as a group
- Topic: Divide Roles
 - Aviaras - upload finished ui to gitlab
 - Dylan - integrate file writer and file browser to ui branch
 - Rokas - update GANNT chart + retroactively, create criteria, update project documents
 - Ryan - update class diagram according to feedback (increase clarity for how the model works to its purpose e.g. authenticate user)
- Next meeting ->Friday 28th February
